

Francesca Aloisi is head of research at the Istituto Superiore di Sanità (Rome, Italy) and coordinator of the Unit 'Demyelinating and inflammatory diseases of the nervous system' in the Department of Neuroscience. After the Laurea degree in Biological Sciences, she performed research activity in the fields of neuropharmacology, neurochemistry and neurobiology. Since the early '90s, she has been working in the neuroimmunology field, focussing on central nervous system-immune system interactions and etiopathogenesis of multiple sclerosis. She has published nearly 120 original articles and reviews in peer-reviewed scientific journals (H-index 56, source Scopus).
